

# PRESS RELEASE

## Eagle Global Scientific, LLC Selected as a One Acquisition Solution for Integrated Services (OASIS) Small Business (SB) 8(a) SubPool 4 (NAICS 541715 Scientific Services) MA-IDIQ Contractor

**Atlanta, GA, October 2, 2020:** Eagle Global Scientific, LLC (EGS) is pleased to announce an award as a Prime Contract holder for the OASIS Small Business (SB) 8(a) SubPool 4 (NAICS 541715 Scientific Services). EGS has demonstrated past performance in Life Sciences, Public Health Communication, and Clinical Research at multiple Federal agencies in the National Capitol Region, at the Centers for Disease Control in Atlanta, GA, and abroad. Our SB 8(a) SubPool 4 award allows us to provide increased contracting flexibility and additional professional services to our Federal clients; EGS was already awarded placement in the OASIS SB Pool 4 earlier this year. Effective immediately, EGS is now on-ramped to both the SB Pool 4 and the SB 8(a) SubPool 4 contracts.

EGS is fully integrated into all OASIS systems and can immediately begin formal contract activity under OASIS SB Pool 4 and/or SB 8(a) SubPool 4. The services provided under OASIS meet the professional service mission requirements of all Federal agencies, including all organizations within the Department of Defense (DoD) and National Security Community.

For task orders placed under OASIS, professional services may be defined as those categories of services provided under one or more of the following Core Disciplines: Program Management; Management Consulting; Scientific; Engineering; Logistics; and/or Financial.

OASIS allows for all contract types at the task order level, and task orders may also combine more than one contract type (e.g., FFP/Cost, FFP/Labor Hour etc.). Additionally, task orders may include incentives, performance-based measures, multi-year or option periods, and commercial or non-commercial items. An unlimited number of task orders may be placed under OASIS for the term of the contract, including Option I, if exercised. There is no maximum dollar ceiling.

Authorized government officials may contact Prime Contract holders through the Pool Links for the primary purpose of issuing Requests for Proposals (RFPs), Requests for Information (RFIs), or other Market Research requests to the OASIS U, OASIS SB, or OASIS SB 8(a) Prime Contract holders by Pool. Non-authorized personnel may contact the Prime Contract holders individually but not with the Pool Links.

Eagle Global Scientific, LLC (EGS) is a wholly-owned subsidiary of the Bristol Bay Native Corporation (BBNC), an Alaskan Native Corporation with operations in government services, construction, industrial services, and tourism.
